

## COST OF LIVING AT ITS HIGHEST

Wholesale Prices in 1910 Four per Cent above 1909.

## FARM PRODUCTS RANGE HIGH

Show 7.5 Per Cent Rise—Statistics Given for As Far Back as Year 1890—A Few Details.

Washington, July 10.—The high cost of living is no myth.

An investigation by the bureau of labor of the prices of 257 commodities during 1910 shows that wholesale prices in that year were 4 per cent higher than in 1909 and 1.6 per cent above the average of 1907, which was the year of highest prices since 1890.

In view of the Canadian reciprocity discussion, an interesting item in the bureau report shows the wholesale prices of farm products were 7.5 per cent higher in 1910 than in 1909.

Wholesale prices in 1910 were 19.1 per cent higher than in 1900; 46.7 per cent higher than 1897 (which was the year of lowest prices between 1890 and 1910); 16.6 per cent higher than 1890, and 31.6 per cent higher than the average high prices between 1890 and 1899.

The highest prices in this decade were reached in October, 1907, when a general decline began which continued until August, 1908. A rise then set in and there were monthly increases without a break up to March, 1910, when wholesale prices reached the highest point in twenty years.

They were then 21.1 per cent higher than the average of 1900; 43.2 per cent higher than the yearly average of 1897, and 33.8 per cent higher than the average price of ten years between 1890 and 1899.

Then followed a slight decline, and from June to December, 1910, prices remained nearly level. At the close of the calendar year 1910 they were still 30 per cent higher than the ten year average between 1890 and 1900, and 45.4 per cent higher than the record set by the low price year 1897. Of the 257 commodities considered in the investigation, 148 showed an average increase, 26 showed no change, and 83 showed decreases.

Prices of lumber and building materials increased 10.7 per cent; farm products, 7.5 per cent; drugs, 4.1 per cent; food stuffs, 3.2 per cent; clothing, 2.7 per cent, and the miscellaneous group of commodities, 5.7 per cent. House furnishings decreased 0.1 per cent, and fuel and light, 3 per cent.

Some extraordinary variations were recorded during 1910. Eggs increased 90 per cent; coffee, 60 per cent, and mutton, 35 per cent.

## RISE AGAINST MADERO

Revolutionists Start Movement in State of Chiapas.

Force of 2,000 Men Is Organized and Town of San Cristobal Seized.

Monterrey, Mex., July 10.—Much significance is attached in political circles to the reports that have just been received of a revolutionary movement that has been set on foot in the state of Chiapas.

Dispatches from San Cristobal, capital of that state, say that a rebel force of more than 2,000 men has been organized to oppose the authority of the Maderist government. This army is well armed and mounted and was recruited along the Guatemala border. It is commanded by Jose Epinosa Torres.

At the head of his rebel force, Torres took possession of the town of San Cristobal and, marching to the residence of Provisional Governor Reinaldo Cordillo Leon, demanded the latter's immediate resignation, which was complied with.

Whether the Torres uprising is backed by any national political interest, or is merely local in its character, is not as yet publicly known. The fact that southeastern Mexico, embracing the states of Chiapas, Tabasco, Campeche, Vera Cruz and Oaxaca, was loyal to the Diaz administration during the recent rebellion, lends importance to uprisings against the present government in that quarter.

## TWO ARRESTED AFTER FIGHT

Three Persons Wounded in Battle About Wisconsin Mill.

Rhineland, Wis., July 10.—The two Italians who fatally shot Sheriff Radcliffe at Eagle River when he attempted to arrest them were captured by a posse between Star Lake and Boswell, Vilas county.

The capture was made after a fight in which both the Italians and one of the posse were injured, but not fatally.

## CELLAR STEP OF LAWRENCE HOME YIELDS \$600 OF MONEY LOST AT PINE LAKE A YEAR AGO

Through the desire of Henry Miller, a farmer employed near Ypsilanti, to secure a neat reward he is reported to have given information to O. J. Pierce of Detroit which is leading to the rapid recovery of \$1,025 which he lost at Pine Lake about a year ago.

Miller, as the story goes, in some mysterious manner had formed a vague idea that all the money had not been spent and where a part of it at least might be. His ideas involved Romane Lawrence, father of Oscar Lawrence, who was arrested and convicted shortly after the money was lost last year, for its disappearance but at that time there seemed no way to recover the treasure. Following

Officer Ryan and Mr. Lawrence, senior, was accordingly rounded up and treated to a kind of third degree work out. It developed that a part of the money was still in keeping of the Lawrence family just as Mr. Pierce had been informed and before the session had ended the exact location was disclosed.

When Lawrence had finally finished his story Mr. Pierce and Officer Ryan in way of securing corroborative evidence and more especially to get their hands once more onto the lost funds, accompanied him to his home and down into a newly built cellar. There they dug into the bottom step of the cellar stairs as directed and found the major portion of the money, \$600 carefully hidden in a small can and built solidly into the cement.

Lawrence claimed to have received a hundred dollars more than the amount buried and promised to return that within a short time.

The money seems to have had an interesting trip around the country before it was finally disposed of. Oscar Lawrence who was working for J. A. Geraghty in Superior township at the time he found the money endeavored to persuade his employer to keep it for him and left it in his care. Mr. Geraghty finally gave it to Lawrence and the climax has now arrived through the volunteered information of Miller who has also been employed on the Geraghty farm.

The implicated men have been busy this afternoon endeavoring to reach an adjustment with local officers, for the balance of the missing money.

## Pittsfield Ladies Well Entertained

Mrs. John Ellsworth entertained on Thursday the Pittsfield Ladies' Aid, assisted by Mesdames Sarah and Clara Elliott, Mrs. William Ellsworth and Mrs. Edward Eadie. Because of the excessive heat, no work was attempted, but the time was spent socially after a brief business session. It was voted that one of the members of the society who has had much sickness in her household should be aided.

The program which entertained the ladies consisted of a reading by Mrs. John Ellsworth, an instrumental duet by Mrs. Ernest Eadie and Harry Miller, recitations by Mrs. N. C. Carpenter and Mrs. A. C. Coe, and a vocal solo by Harry Miller. Papers were read by Miss Dora Harris on Mrs. Nettie Hosner and by Mrs. C. H. Roberts on Mrs. Andrew Campbell. These attested the affectionate esteem in which these lately departed members were held.

Delicious refreshments were served. It is probable that the meeting on August 3 will be held with Miss Dora Harris on Summit street, Ypsilanti. Miller's idea Mr. Pierce consulted

## GOOD PROGRAM FOR THE NEXT SUMMER CONCERT

The special features of the week at the Normal Summer school are a concert by Mrs. Eleanor Hazard Peacock on Tuesday evening, assisted by Miss Lowden, Miss Owen and Professor Alexander; readings by A. L. McGreene on Thursday and Friday evenings; and the regular grammar grade methods between three and four o'clock and primary methods between eleven and twelve in the morning.

## HOKE SMITH Georgia Governor Who May be Elected Senator Wednesday.

## ELECTING A SENATOR

Georgia Legislature Will Go about It Tomorrow.

Situation Seems to be Governor Hoke Smith Against the Field, with Odds Favoring Smith.

Atlanta, Ga., July 10.—The general assembly of Georgia will ballot Tuesday to fill the four-year's unexpired term of the late United States Senator A. S. Clay, whose place is being filled ad interim by Ex-Governor J. M. Terrell, who was appointed by Governor Brown.

The announced candidates are Governor Hoke Smith, who has just been inaugurated for a second term; Ex-Governor J. M. Terrell, Thomas F. Watson, the Populist; P. A. Stovall, editor of the Savannah Press, and Judge A. W. Covington.

It is generally believed that Governor Smith will be elected, though his enemies have been trying to form all sorts of combinations to bring about a deadlock. In an effort to defeat Governor Smith his opponents have been trying to get favorite sons to enter from various sections of the state, but it seems to be the governor against the field. It is said that the senate will cast a small majority against Governor Smith Tuesday, but the house will give him a majority of about 40. This means Smith's election when the joint ballot is taken Wednesday.

It is understood if Governor Smith is chosen that he will not qualify as senator until the regular session of congress in December, retaining the governorship till then in order to put through some legislation.

South Bend, Ind., July 10.—William F. Snow, seventeen years old, was drowned while swimming in the St. Joseph river. The body was recovered.

## WRESTLER ERLER MARRIES

Saugatuck Romance Grows Out of His Athletic Powers.

Holland, Mich., July 10.—Frank Erler, a young wrestler, who has clashed with such men as Hackenschmidt and Gotch, and Miss Nora Erler, daughter of H. J. Erler, proprietor of the Kalamazoo house, Saugatuck, are the central figures in a romantic marriage.

Erler, the hotel proprietor, heard of the wrestler bearing his name and arranged to meet the athlete, who later met the girl. The wedding was deferred until this time in compliance with her parents' wishes.

## LOSES LIFE HELPING FATHER

Loaded Hay Wagon Crushes Girl's Head When She Falls.

Durand, Mich., July 10.—John Hartman, aged fifteen, the daughter of a prominent Shiawassee township farmer, died from injuries sustained while helping her father in haying. The girl was driving a team when the horses started suddenly, throwing her off the wagon.

The wheels passed over her head, crushing it. Her father was on the rear end of the load, but didn't miss the girl until he saw her lying bleeding and crushed in the wake of the wagon.

## WAGE RAISE FOR RURAL CARRIERS

Postmaster General Orders Increase All along Line.

## \$4,000,000 TO BE DISBURSED

Maximum Salary Is Thus Made \$1,000 a Year—Mr. Hitchcock Figuring on Obtaining Parcels Post.

Washington, July 10.—Postmaster General Hitchcock has issued an order for the disbursement of \$4,000,000 in the current fiscal year as increases in the salaries of rural letter carriers.

This sum was appropriated for the purpose at the last session of congress in terms that left it discretionary with the postmaster general to authorize the expenditure of the full amount. The effect will be to increase the salaries of all rural carriers on standard routes from \$900 to \$1,000 a year, with proportionate increases on the small routes.

On June 30 last there were 41,562 carriers, and their aggregate salaries for the fiscal year just ended was about \$35,793,000. The rural delivery system was started only fifteen years ago. It increased from eighty-three carriers, at a cost of \$14,840 for the fiscal year 1897, to 35,600 carriers, at a cost of \$24,201,520 for the fiscal year 1906. A large growth has also occurred in the last five years, the cost of the service having increased about \$10,000,000.

When the system was first established carriers were paid only \$200 a year. The next year the maximum annual pay was increased to \$300 and in the following year to \$400. In 1900 the maximum compensation was made \$500 and in 1902 \$600. In 1904 a further increase to \$720 a year was granted and finally in 1907 the maximum pay was advanced to \$900. The maximum of \$1,000 to be paid in the current year is thus five times the salary at which the system was started fifteen years ago.

An important consideration that induced Mr. Hitchcock to authorize the full expenditure of the \$4,000,000 was his desire to give the rural carriers additional compensation to cover any additional burden to be placed on them by the establishment of the parcel post system he has recommended for rural routes. Now that the men are to receive such an increase he feels that congress should lose no time to authorize the carrying of parcels. He points out that a parcel post system on rural routes can be conducted without any extra expense to the government other than the \$4,000,000 salary increase which, in his judgment, will be more than offset by the parcel post revenue.

## DEATH VALLEY SCOTT AGAIN

Appears in Goldfield, Nev., with Pockets Lined with Money.

Goldfield, Nev., July 10.—Death Valley Scott, the mysterious stranger who has startled every large city in the United States by his eccentricities and wild expenditures of money, turned up in Goldfield with his pockets bulging with greenbacks. Three months ago Scott was in Reno dead broke. How he suddenly came into wealth is a mystery, but he displayed \$11,000 in currency and promised to reveal the location of his fabulous wealth after Aug. 1.

In the meantime Scotty says he intends making another spectacular whirlwind dash across the continent in a special train. After that Scotty will settle down.

## CHURCH EVENTS FOR THE WEEK

The ladies of the Congregational church will hold their monthly afternoon tea Thursday of this week at the residence of Mrs. M. G. Wood, 21 Normal street.

This evening the Sunday school board of the First M. E. church will meet at the church for a pot luck supper at 6 o'clock.

The annual outing of the Methodist church and Sunday school and junior league will be given Thursday of this week. The objective point will be Belle Isle. Details will be published later.

The Epworth League will give a picnic tea on Friday of this week at Recreation park at 6 o'clock.

The M. E. Home Missionary society will meet with Mrs. Katherine Bertram on Friday of this week instead of Thursday.

Try the Daily Press Profitbringers for quick results.

## ANNUAL REPORT OF SUPT. ARBAUGH SHOWS MANY IMPROVEMENTS

Following is the annual report of city school conditions as submitted by Supt. Arbaugh for 1910-1911:

### ROLL OF HONOR.

The following is a list of the names of those whose attendance has been perfect. It includes the names of those, as well, who, while not belonging to entire year, were not absent while belonging.

### Central Building.

High School—Christine Ableson, Ardis Bentley, Earl Freeman, Nat Hopkins, Clara Huston, Charles Lamb, Dan Olinger, Gertrude Shutes, Mae Wallace, Harry White.

Grades—Louise Camp, Ruth Clikeman, Howard Curtis, Clara Gleason, Lillian Leeson, Irene Lutz, Isca McClaughry, Ruth Matthews, Gertrude Maubetsch, Ruth Max, Bertha Parsons, Milton Richmond, Stanley Richmond, Edna N. Schmid, Florence Smith, Lena Smith, Hazel Stitt, Marjorie Sweet, Glen Wilkinson, Lawrence Ziegler.

### Woodruff.

Helen Beranek, Gladys Dolbee, Marguerite Hanjostin, Carl Hipp, Madeline Johnson, Alice Misener, Marie Moore, Marguerite Reddaway, Sherman Robbins, Ella Schafarik, Foster Thumm.

### Prospect.

Phyllis Norris, Thillie Taekman.

I am glad to report that the past year has, in most respects, been a successful one. More time than is usual was lost from the prevalence of contagious diseases, especially in the lower grades. Such conditions are always detrimental to school work. The progress of individual pupils is hindered, and there is unavoidable repetition and reviewing of work for those who have been obliged to remain out of school.

The medical inspection and oversight of pupils, which was started a year and a half ago, was of benefit in preventing to a great extent the more general spread of contagious diseases. In regard to medical inspection in general in the schools, I am able to report most beneficial results in many ways. A physical examination of all the pupils of the elementary grades was made during the year, and, in one building, there were visits from the examining physician as often as once a month, while pupils were frequently sent to be examined at the physicians' office. The attention of several parents was called to serious physical defects in their children, with the result that more serious consequences later were averted. Besides, these physical examinations and visits from the physician, with his advice concerning diet, fresh air, and exercise, have had the effect of interesting children in good health and of impressing upon them the importance of sound physical condition. The suggestions from the school and the school physician have been taken in good part by the parents. In addition to the regular notice which has been sent to parents, advice of a general nature has been given in a large number of cases and with good results. The following are copies of some of the notes sent to parents:

Dear Mr. .... School Physician, has suggested systematic physical exercise for ..... as a means of correcting a tendency to round and stooping shoulders. Please see your family physician or a physical director who will be able to prescribe a form of exercise for him.

Respectfully,  
The cooperation of parents has been

As a result of my examination of your ..... I would recommend that you consult your family physician in regard to her diet. She does not seem to be getting the required amount of nourishment from her food.

Respectfully,  
The cooperation of parents has been

### Port Huron Gets a Factory.

Port Huron, Mich., July 10.—This city has secured a new factory which will employ over 300 men when completed. It will be known as the Port Huron Paper company, and work will be commenced immediately on buildings it is to occupy. This company will consolidate with the Michigan Sulphite Fiber company. At the head of the new company is John E. Dudgey, a well known papermaker of Wisconsin.

### Bride Dies of Poison.

Grand Haven, Mich., July 10.—Mrs. John Dreffehn, aged twenty-six, died at Spring Lake as a result of drinking poison with suicidal intent. Mrs. Dreffehn had been married only one month and came from Chicago, where she was a stenographer, to live on a farm and became melancholy.

Profitbringer column for quick results.

enlisted through parents' meetings in all the schools. Such topics as "The Hygiene of the Home and School," "The Relation of the School to the Home," "Pure Food," etc. Have been discussed before gatherings of parents and teachers. In this same direction, much good has come, also, through the systematic use in the schools of the text-books in hygiene—the Gulick Hygiene Series—adopted two years ago. These books are interesting to the children, and the teachers find them teachable. Besides, they are read with interest by parents, so that their use is not limited to the school room.

While one cannot speak in detail of all the various lines of school activity, I desire to call attention to the most excellent exhibit of the work in manual training, domestic art, and drawing held at the Masonic Temple the early part of June. The exhibit was most creditable to the teachers and pupils, and was visited by very many who expressed great interest in what was being done in these departments of the schools. Besides many small articles illustrating fundamental principles of the work, there was a large number of larger and more pretentious articles; in manual training, tables, chairs, desks, etc., and in domestic art, wearing apparel of many kinds, all sensible and practical.

Another feature of the schools which deserves mention because of its distinctive and somewhat unusual character, in the Public School Library. Through the efforts of the Librarian, the uses of the Library have been multiplied. Reading lists on various topics connected with the regular work of the schools and of topics of current interest have been prepared and made accessible to pupils. Systematic instruction on the use of the Library has also been given. High school classes have been instructed how to use the card catalogues, how to consult works of reference, how use indexes and tables of contents, the method of classification of books, etc. In the grade rooms, talks on books, their care and use, have been given, and lists of books have been recommended for reading in each grade. Besides this general instruction, much has been accomplished by teachers, with the aid of the Librarian, in the way of creating a love of reading, a knowledge of books, and the service they may be made to perform. The greatest handicap to more effective work of this kind is the lack of room. Fully twice as much room as is now used is necessary in order to see desired extensions of this feature of our school equipment.

It may not be out of place in this report to speak briefly of the splendid results that have come from recent text-book changes. Two years ago the Aldine readers were adopted in the first two grades. The equipment accompanying these readers was also purchased. This included charts, rhyme cards, sight cards and manuals. The results the first year were good, but during the past year, after teachers had become more familiar with the method of the books, results have been unusual. During the year, classes of pupils who had not previously attended school read from four to six primers and first readers, acquiring at the same time power of independent effort and a liking for reading. We also found that children readily took up the task of learning to spell.

A year ago the Dodge geographies were adopted for use in the fourth and sixth grades. The increased interest shown by both teachers and pupils is sufficient evidence that these books treat vital and human phases of the subject of geography. Next year, according to the arrangements at the time of their adoption, the use of these books will be extended into the fifth and sixth grades.

As a part of my annual report this year, I would include the special report which I submitted a few months ago on the need of increased school facilities. I am gratified at your action in approving of what was set forth in this report.

In conclusion, I desire to express my appreciation of the loyal services of the teachers of the schools. I realize that it is only through their efforts that the standard of accomplishment in the schools has been kept up during the year. In behalf of the teachers, too, I wish to thank you for your cooperation and support. The fullest measure of success in our work can come only as a result of the united and whole-hearted efforts of all those who occupy positions as servants of the public good.

## PROGRESS.

"Can any good thing come out of Nazareth" seems to sum up the lack of faith of the people of old in a certain Oriental state. Something of the same sentiment has obtained largely of late years with reference to corporation-corrupted and enslaved New Jersey. But, as of old, we are bidden "Come and see." The Saturday Evening Post has this to say editorially for one of the progressive measures which the people have secured from their representatives during the administration of Governor Woodrow Wilson:

"Any city in New Jersey may now, at a special election, adopt the commission form of government, so that responsibility for running the town will be squarely vested in only three or five men instead of being scattered and hidden among twenty; but the enabling act grieves some staunch friends of 'representative' government by providing that the commission scheme shall include initiative, referendum and recall. A stock argument against referendum is this: If a given body of voters is not intelligent enough to choose a faithful representative it cannot be sufficiently intelligent to pass upon proposed laws.

"This is like arguing that if a farmer hires a hand who lets the pigs into the garden he cannot be wise enough to decide whether or not he needs a garden. Any voter may have sound ideas upon important public measures and still not know whether a candidate whom he never saw, and concerning whom his information is vague and contradictory, will faithfully represent him. Often astute bankers find they have been fooled about the character of subordinates who are constantly under their eyes and whose occupation they thoroughly understand. No body of voters ever knowingly chooses a faithless representative. Such bodies frequently get fooled. Opponents of initiative, referendum and recall think it is their duty, in such cases, to stay fooled."

South Ypsilanti, July 8.—Mrs. Byron Wilkins left for Lima, Ohio, Friday morning, called there on account of the death of her grandfather. She will remain for a few days with her parents.

Mrs. Howard Moore will preach at the Adrian Valley church Sunday, July the 9th.

Mr. and Mrs. Martin Dawson and Mrs. Walter Stitt of Ypsilanti were callers at the home of their parents, Mr. and Mrs. Dawson, of Willis, Thursday.

Mrs. Will Young and children were guests of her mother over the Fourth.

Miss Mabel Richards of Hanover who has been the guest of Miss Emily Moore will return to her home Friday morning.

Miss Jennie Case spent the Fourth at the picnic in Lamkin Grove.

Mrs. August Selska is enjoying the company of her sister this week.

Farmers have begun their threshing in the field.

Mr. and Mrs. George Collins of Stony Creek spent Sunday in Milan, guests of Mr. and Mrs. Arba Andrus.

Mrs. Nora Bennett Hamilton of Kansas City is the guest of her father, Henry Bennett, of Ypsilanti.

Ypsilanti Township, July 8.—Mrs. J. C. Tuttle has been entertaining Mrs. Lydia W. Dunn, a cousin, from North Adams.

Mr. and Mrs. George Efner and their two children, Ford and Bessie, of Zanesville, Ohio, are spending a couple of weeks' vacation with Mrs. Efner's parents, Mr. and Mrs. George Crane.

Mrs. Mary Efner, mother of George Efner, accompanied them.

Mr. and Mrs. F. A. Ward and son Charles of Ypsilanti are spending a few days with Mr. and Mrs. Charles Crittenden.

The Ladies' Helping Hand society will hold their next regular meeting at the home of Rev. and Mrs. F. S. Leonard at Belleville, Thursday afternoon, July 12.

A. C. Freeman has left for a trip through the west. He will stop in Wisconsin, will visit his uncle, Lang Scripture, at Webster, North Dakota, and eventually go on to Washington, Oregon and California, returning by way of Denver and Salt Lake City.

Mrs. L. E. Ward has received word of the death of Florence Evelyn, the one-year-old daughter of Mr. and Mrs. Frank Armstrong of Detroit. Mr. and Mrs. Armstrong formerly lived at Ward's Corners and it will be remembered that it was Mr. Armstrong who was hurt a few years ago while engaged as an operator in this vicinity.

## Points for Mothers

Infantile Paralysis.  
Being a germ disease, infantile paralysis is communicable from person to person. It is contagious and infectious. The germ is mainly taken through the nose.

It is communicated by means of the nasal discharge.  
Wherever possible handkerchiefs should be destroyed when soiled. In any event, they should be thoroughly boiled.

The use of the pocket handkerchief, however, is not sufficient to protect a child from infection. The nasal passage and throat should be kept thoroughly sterilized. A mouth and nose wash of hydrogen peroxide may be used for the purpose. This may be applied with an atomizer or other form of spray.

Children should be made to avoid the filth of the streets. Under no circumstances should they buy fruit or candies which have been exposed to the dust charged air of the streets.

Do not let your children indulge in kissing. Infantile paralysis may very readily be spread in just that way.

Above all, keep your child clean.

These precautions are more necessary in the summer months, but it would not be unwise to practice them the whole year.

## Gifts For Children.

The joy of welcoming a new baby into the family often finds expression in deluging the newcomer with offerings and tokens. No gift can be too great and costly for baby.

Proud grandparents and doting aunts and fond uncles and sympathetic friends all wish to attest their interest in some tangible way, and "what to give" baby continues to be a source of anxiety throughout its career. It seems almost a crime to think of the large amounts expended upon toys whose usefulness are over in a day.

Why does not some one think of the future and give things that are really worth while and which will give real pleasure later on? Think of the joy of possessing a good library when one is old enough to fully appreciate it!

Some girls possess strings of well matched pearls whose beginnings were formed when they were tiny tots and who received one at a time as birthday gifts. Sets of silver forks and spoons have also been gathered together in this way, and pictures which have some true artistic value. It is true that all these things are of but scant interest to the very young boy or girl, but as they grow older their interest is awakened, and a real appreciation for possessing beautiful things is found to be a great delight.

## Mothercraft For Boys.

Mothercraft for boys is the newest thing in the various settlements in the east side of New York. Boys are taught to help their mothers at home. Mothercraft includes care of the baby, cooking, dressmaking, laundry work, home management, home hygiene and many other things.

"I think the time soon will come," said a settlement worker, "when boys throughout the country will be taught domestic economy just as are girls. Among the poorer classes men frequently are out of employment, and the women can find work. Naturally the husband should be able during his idleness to attend to the household duties. The sooner a boy learns much about the care of the home the better fitted he will be in an emergency to look after the home. He should be trained to help his mother. Then he will be prepared to help his wife."

## A Boy's Friends.

Welcome Tom, Dick or Harry if he is your boy's friend. Treat him with as much respect as you would an older person. His friend's remarks will influence your son mightily in his regard for home.

Moreover, if the friend is undesirable your boy will more easily see it in the refinement of home. Outside he may be a hero; within, all his defects stand out.

Encourage your boy to bring his friends home. You can see his associates then, and he does not need to go out to see them.

## Evenings at Home.

Mothers, don't keep your tired moments for the evening. Rest, if need be, in the afternoon, for you have very important work to do later on. Be ready to play games, to accompany songs, even to dance, for there is nothing so good or so jolly, and many perfect dancers have been made at home. If the home is a proper club it will have its dramatic society, its choir, its band, its parliament, its lending library, its smoking concerts and its "ladies' night." You can make the boys think there is no place like home if you like.

## Crochet Socks.

Pretty little socks are made for baby in handmade lacework. They are extremely fine and of an intricate design, but they would be pretty and serviceable if made from soft cotton in any pretty crochet stitch, and the woman who is handy with the hook could easily make them without a pattern.

## Invention of Danish Scientist.

An instrument for measuring the nocturnal terrestrial radiation of heat has been invented by a Danish scientist.

## For the Children

Dolls' Eyes That Grow In the Woods.

In the spring woods we seldom observe the short, fuzzy clusters of the white baneberry flowers, but in the autumn woods their fruit, oval, white, poisonous berries, with a dark purple spot on the end, are very noticeable. They bear a remarkable resemblance to dolls' eyes; hence their common name.

Country children often use them for dolls' eyes by pushing them into proper places in the face of the "rag baby." If the baby is black the effect is startling. It is more than realistic, for it is suggestive of ludicrous horror on the part of the little "puckin'-ny." Please remember that you may handle these berries freely, but do not eat them. As already stated, they are poisonous.—St. Nicholas.

## Three Clever Tailors.

Three clever tailors had their shops on a leading business street. Each was eager to get all the trade possible, and each wanted to outdo the other.

Tailor No. 1 put this advertisement in his show window:

THE BEST TAILOR IN THIS TOWN.

When tailor No. 2 saw this he made up his mind to go his neighbor one better. He thought and thought and finally hit on this advertisement, which he placed attractively in his show window:

THE BEST TAILOR IN THIS WORLD.

Tailor No. 3 all the while was keeping very quiet. He was too busy to pay much attention to the first sign, but when the second went up he winked his eye and laughed in his sleeve, and very likely in several other sleeves, for he was the cleverest tailor of the lot, and he knew it. Others knew it, too, when a few days later his sign went up. It read:

THE BEST TAILOR IN THIS STREET.

## Bathing in Sweden.

The weekly bath at some of the private schools in Sweden is a very fun affair. Running hot and cold water is unknown, and that the pupils may all bathe at the same time and help each other round, shallow tubs full of water are placed on the floor in a circle.

Each boy is given a pair of cloth mittens and a piece of soap and told to get into a tub. The tubs are close together. When the boys have been in soak a few minutes each one is told to set to work on the back of the boy in front of him and give him a good scrubbing.

Nothing could be more ludicrous than the sight of two or more dozen boys vigorously belaboring each other's back with their wash rags. Occasionally one will take this opportunity of paying off an old score and will dig his neighbor's back with a vengeance. As a rule, all look forward to the bath hour with pleasure, and the greatest hilarity prevails amid the splashing of soap and water.

## Conundrums.

Why is a very amusing man like a bad shot? Because he keeps the game alive.

Which is a woman's favorite word? The last one.

When people are quarreling out of doors what should they do? Co-incide go inside.

If I were in the sun and you were out of it what would the sun become? Sin.

Who is the oldest lunatic on record? Time out of mind.

Why are some doctors like woodcocks? Because they present long bills.

When does a farmer double up a sheep without hurting it? When he folds it.

Which is the rudest bird in existence? The mocking bird.

## Old Games.

"I spy" is an old game and is found with a few variations in nearly every country in the civilized world. Blind man's bluff is almost universal. The name varies, but that is the only difference in most cases. In Norway it is called "blind thief," in Spain "blind hen" and in Italy "blind cat."

## An Orchestra.

The ostrich made an orchestra. That was both rare and grand. More strange than any music ever heard on sea or land. For drums (you'd hardly guess it) He'd turtles from the mud. And with his wings as drumsticks He gave them many a thud.

## Short but Active Lives.

The working bee lives six months, the drone four months and the queen bee four years.

## NEW BATHING SKIRT.

The Harem Type Will Be Exploited at Smart Beaches.

DIVIDED BATHING SKIRT.

If there are any novelties in the season's fashions of course they will be reflected by the smart bathing suit. In this case the harem skirt idea has been adapted, and the result is that divided bathing skirts are made for smart women. The divided skirt is a sensible one for outdoor sports, and as a bathing skirt it is comfortable and modest, for it is laid in deep plaits that make it even fuller than the average bathing skirt. Ordinarily no one would suspect that this trim costume was a type of the much exploited and much execrated jupe eulotte.

Mohair, serge, silk and satin are some of the materials favored for bathing costumes. They are usually trimmed with bands of contrasting material. The princess suit with a high waist effect, achieved by means of a girde, is popular. With the bathing dress a smart jersey is sometimes worn. A silken handkerchief with a striped border is knotted over the hair, and ornamental sandals are adopted for the feet.

## MASCOT HANDLES.

Umbrellas and Parasols Adorned With Quaint Good Luck Symbols.

The mascot umbrella is one of the fads of the moment. Animal heads or animal figures carved in ivory, wrought in silver or gun metal, are not only attractive, but suited to the taste of the hour. An umbrella handle bearing the device of a white elephant is a sufficient reminder to the borrower that should he fail to return it in more senses than one he is likely to have an elephant on his hands. The monkey, according to oriental beliefs, brings good luck, and consequently a monkey handled umbrella is much prized. Pussy cats, puppy dogs, parrots, little ivory gods—in fact, good luck figures of all kinds—adorn the handle of the modish sun umbrella and parasol. Black handles are very popular. Says the Dry Goods Economist: "They are brought out in various materials—enameled wood, vulcanite, carved ebony, etc. These are not only used with the black and white novelties, but are also in strong demand for colored parasols of all grades. Mission handles continue prominent in the popular priced goods, and mushroom tops are still well taken."

NEW UMBRELLA HANDLES.

At the same time we do not believe it necessary to establish a home for indigent trust magnates.—Milwaukee Sentinel.

## Woman's World

A Little English Girl Whom Every One Must Address as Ma'am.

PRINCESS MARY OF ENGLAND.

To be a king's daughter is all very well in a fairy tale, but most kings' daughters have far from an easy life. There is the little fourteen-year-old daughter of the king and queen of England. She has lessons that would shame many an American college girl, for a princess' education ends at seventeen or eighteen, and there are many things which she must learn that ordinary girls are not troubled with.

For instance, she must be proficient in several languages and have a good working knowledge of the history of different nations, particularly their modern history. She must be something of an artist and musician, and if her mother is a person of housewifely tastes, as is Princess Mary's mother, then her spare moments are filled up with instructions in regard to cooking, baking, housekeeping and sewing.

When the little princess goes to visit her grandma, Queen Alexandra, that royal lady initiates her into the art of darning, which to the daughter of a king of Denmark is a very important matter. Then her father insists that his daughter must not neglect her horseback exercise or other outdoor sports, in which nowadays all smart young Englishwomen excel.

It will be seen that the little English princess has no life of leisure. The only girl in a family of four boys, all of them lively and fond of fun, it may be judged that the princess has no chance to become self conscious or vain.

One of the latest court rules is that every one not of royal rank must address the little girl as "ma'am," and it is funny to Americans to see gray haired dowagers courtesying to the seventeen-year-old Prince of Wales and graciously answering his little sister with prim "Yes, ma'am" and "No, ma'am."

## CHOOSING WALL PAPER.

Its Light Reflecting Qualities Should Be Considered.

No paper reflects all the light which falls on it, but the blottiest of all papers would be white blotting paper, if that were allowable on the walls. White blotting paper reflects four-fifths of the light. The remaining fifth it absorbs and renders useless. Ordinary foolscap is less bright, swallowing three-tenths and reflecting only seven-tenths.

Taking these as the brightest possible papers, we can see how a room may be treated so as to be cheerfully luminous or as gloomy as a prison. The range is so great that we can make the walls of one room fourteen to sixteen times darker than another, although the same amount of light enters both.

The brightest wall paper is the white figured, while white and gold is almost as effective in throwing back the light falling on it.

It may be taken as reflecting nearly seven-tenths. Next comes chrome yellow paper, which reflects six-tenths, and this is followed closely by orange paper, reflecting five-tenths of the light.

Yellow wall paper and yellow painted walls give back only four-tenths of the light; they swallow up more than they reflect, and light pink paper is just a trifle less bright.

Light blue paper is rather deceitful. Contrary to what one would expect, it absorbs three-fourths of the light.

## BUYING RIBBON.

How to Know What Width to Ask the Saleswoman For.

Very few women have escaped the annoyance of trying unsuccessfully to buy ribbon of a particular width. When one considers the question it is quite natural that manufacturers should turn it out in certain staple widths, but the difficulty is that very few of us know just what these widths are. When ribbons are used as much as this summer our troubles are multiplied.

Here are the numbers and their corresponding widths. Cut this out and keep it for reference next time you need ribbon approximately a certain width:

No. 1 (baby), 3-16 inch; No. 1½, 5-16 inch; No. 2, ¾ inch; No. 3, ¾ inch; No. 5, 15-16 inch; No. 7, 13-16 inch; No. 9, 1¼ inch; No. 12, 11-16 inch; No. 16, 2¼ inch; No. 40, 3¼ inch; No. 60, 4 inches.

There are other intermediate widths, of course, but these are the most usual.

## Is Happy Now.

"Gee, ain't it a great relief when you've been suffering from toothache to summon up your courage and go to a dentist and have it over with!"

(Continued from Page 1)

## ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS, 1910-1911

To the Board of Education, City and Township of Ypsilanti:  
The report of the schools of the district for the year ending July 10, 1911, follows:

## STATISTICAL.

Table No. 1 Showing Total Enrollment, Cost of Schools, Etc..

Population of city and district (estimated).....	7,000
Number of children in the district between 5 and 20 years.....	1,609
Number of different children enrolled in the schools.....	1,020
Value of school property.....	\$70,000
Indebtedness of district.....	0
Cost of superintendence and instruction.....	\$21,955
Current expenses.....	\$7,074
Total cost of schools.....	\$29,029
Average number belonging.....	873
Cost per capita based on average number belonging.....	\$33.25

Table No. 2 Showing Enrollment and attendance by Departments, Teachers Employed, Etc.

	H. S.	Gram.	Prim.	Total
Different pupils enrolled.....	269	330	421	1,020
Belonging at end of year.....	233	273	347	853
Average number belonging.....	239	288	346	873
Average daily attendance.....	228	273	324	825
Per cent. of attendance.....	95	95	94	94.5
Number of pupils perfect in attendance.....	10	21	12	43
Number of regular teachers—men.....	2	0	0	2
Women.....	6	8½	12½	27
Number of special teachers.....	1	2	1	4
Superintendent.....				1
Librarian.....				1
Average number of pupils belonging to each regular teacher.....	27	33	27	29
Number of non-resident pupils.....	48	3	1	52
Number graduated.....	369	48	78	166

Table No. 3 Showing Enrollment by Grades.

	Boys	Girls	Total
First Grade.....	78	74	152
Second Grade.....	51	56	107
Third Grade.....	42	56	98
Fourth Grade.....	54	37	91
Fifth Grade.....	51	55	106
Sixth Grade.....	38	42	80
Seventh Grade.....	43	43	86
Eighth Grade.....	34	39	73
Ninth Grade.....	61	64	125
Tenth Grade.....	28	26	54
Eleventh Grade.....	18	30	48
Twelfth Grade.....	15	27	42
Total.....	513	549	1062
Transfers.....			42
			1020

Table No. 4 Showing Enrollment and Attendance by Buildings, Visits Special Teachers and Superintendent.

	Cent.	Wood.	Pros.	Adams
Different pupils enrolled.....	621	246	95	58
Daily average belonging.....	541.8	204.2	81.6	47
Daily average attendance.....	516.1	193.1	77	41
Per cent. of attendance.....	95.2	94.5	94.3	87.2
Cases of tardiness.....	718	516	69	111
Number of pupils neither absent nor tardy.....	30	11	2	0
Visits by supervisor of drawing.....	304	223	129	65
Visits by supervisor of music.....	369	232	121	62
Visits by superintendent.....	207	130	97	44

Table No. 5 Showing Total Enrollment by Departments, Withdrawals, and Number Belonging at End of Year.

	Total enrollment	Left by transfer	Left by removal	Left because of ill health	Left to work	Left from lack of interest	Deaths
High School.....	268	0	11	20	1	1	1
Gram. Grades.....	345	18	10	8	19	2	0

Joax—Went right to sleep.

PROTECT

The Health of Yourself and Family  
Pope's Herb is prepared to provide a dependable household remedy, based upon the principle of purity of blood insuring freedom from disease. It is a medicine for maladies such as, Rheumatism, Liver Complaint, Constipation, Fever and Ague, Indigestion, Lumbago, Kidney Derangements, Catarrh, Sick and Nervous Headaches, loss of Appetite and all ailments arising from inactivity of the Liver and Kidneys.

It is a purely Herbs, Barks and Roots Compound. It is put up in chocolate coated Tablets pleasing and easy to take, (or can be dissolved in water.)

Mrs. J. C. Meade of Hyattsville, Md., says:

"For years I have suffered with Backache, Headache, Neuralgia, and Nervousness and extreme Fatigue. I tried many remedies without relief. Four months ago a grateful friend induced me to write to Pope Medicine Co., Washington, D. C., for a box of Pope's Herb Compound Tablets, the very first dose of two tablets gave me relief. I used not quite a \$1.00 box and I am entirely cured of the pain in my back and have no more headache."

Dr. J. V. Hennessey, a prominent Physician and Surgeon of Albany, N. Y., in a blood says:

"As a Blood Purifier, Liver, Kidney and System regulator I prescribe Pope Medicine Co.'s of Washington, D. C., Herb Compound, as I have done for the past 20 years, and I have found it to be a great remedy, which seldom if ever fails. There are thousands of letters from users of Pope's Herbs, that have been benefited and cured by its proper use. Pope's Herb Compound Tablets are put up 200 in a box, "six months treatment," and will be sent post-paid on receipt of \$1.00. Each box contains a printed guarantee binding us to refund the purchase price if the remedy fails to benefit, also full directions.

Guaranteed by the Pope Medicine Co., Inc., under the Pure Food and Drugs Act, June 30 1906, No. 34956.

For terms to agents in unoccupied territory address Pope Medicine Co., Inc., Pope Building, Washington, D. C.

## PITCHER PERDUE TELLS OF STINGIEST BALL TOSSEY.

"Hub" Perdue of the Boston Nationals tells of a ball player who achieved considerable popularity with fans in the south, but who was not popular with his waiter for the simple reason that no tips were forthcoming during five long seasons. One day Mr. Ball Player and George had the following conversation: "You going to be here right along, George?" "Yassar."

"All right. Then I'll be seeing you."

The waiter scratched his kinky locks and then had an inspiration thusly:

"Ah, been seeing you for five years, but you-all hasn't seen me yet. Ah wish Boston done graft you."

## THE DIFFERENCE IN COLLEGE AND BIG LEAGUE BASEBALL

What makes the great difference in pitching college or minor league ball and facing major league batsmen is the fact that in this company the batters insist on getting the ball over the plate. They do not bite at anything that is dished up, soon have a pitcher in the hole, and when he is forced to aim it over of course no difficulty is experienced in hitting him. There are any number of no bitts games pitched in college baseball, and yet these same pitchers would stand but a slight chance to make good in a major league. College teams do not hit much as a rule, and an ordinary pitcher often looks like a star in that company. The fact remains that the college pitchers who have made good in the big leagues have come not from the big colleges, but from some of the more remote institutions.

## UMPIRE JACK DOYLE'S EXPERIENCE WARNING TO OTHER BALL PLAYERS

The experience of Umpire Jack Doyle in Philadelphia recently when angry fans tried to lay violent hands on him and would have succeeded but for the action of the police may be regarded as a warning to ball players who may try to umpire after their diamond careers are at an end.

When Doyle was a ball player he excelled as a kicker and an umpire. Close decisions against his team riled him to deeds of violence. He even went so far as to assault several umpires, including Thomas Lynch, now president of the National League. He was fined and suspended again and again for his vigorous fault finding, yet he never changed his tactics.

But as an umpire himself, Doyle has discovered that mistakes in rendering decisions are possible and that even correct rulings do not please partisan fans, who regard the judgment of play as a common enemy.

## GOOD RECRUITS ARE NUMEROUS

Many Young Baseball Stars Discovered This Season.

## CHICAGO APPEARS TO HAVE BEST

Ping Bodie and Roy Corhan Are Two Hummers—Cleveland Has Been Very Fortunate, and So Have the New York Americans.

Every spring new baseball phenoms bob up in the major leagues, but usually not more than a quarter of them last over two months, but this season seems to be an exception, for there are nearly 100 newcomers in the American Association.

## PITCHER PERDUE TELLS OF STINGIEST BALL TOSSEY.

"Hub" Perdue of the Boston Nationals tells of a ball player who achieved considerable popularity with fans in the south, but who was not popular with his waiter for the simple reason that no tips were forthcoming during five long seasons. One day Mr. Ball Player and George had the following conversation: "You going to be here right along, George?" "Yassar."

"All right. Then I'll be seeing you."

The waiter scratched his kinky locks and then had an inspiration thusly:

"Ah, been seeing you for five years, but you-all hasn't seen me yet. Ah wish Boston done graft you."

## THE DIFFERENCE IN COLLEGE AND BIG LEAGUE BASEBALL

What makes the great difference in pitching college or minor league ball and facing major league batsmen is the fact that in this company the batters insist on getting the ball over the plate. They do not bite at anything that is dished up, soon have a pitcher in the hole, and when he is forced to aim it over of course no difficulty is experienced in hitting him. There are any number of no bitts games pitched in college baseball, and yet these same pitchers would stand but a slight chance to make good in a major league. College teams do not hit much as a rule, and an ordinary pitcher often looks like a star in that company. The fact remains that the college pitchers who have made good in the big leagues have come not from the big colleges, but from some of the more remote institutions.

## UMPIRE JACK DOYLE'S EXPERIENCE WARNING TO OTHER BALL PLAYERS

The experience of Umpire Jack Doyle in Philadelphia recently when angry fans tried to lay violent hands on him and would have succeeded but for the action of the police may be regarded as a warning to ball players who may try to umpire after their diamond careers are at an end.

When Doyle was a ball player he excelled as a kicker and an umpire. Close decisions against his team riled him to deeds of violence. He even went so far as to assault several umpires, including Thomas Lynch, now president of the National League. He was fined and suspended again and again for his vigorous fault finding, yet he never changed his tactics.

But as an umpire himself, Doyle has discovered that mistakes in rendering decisions are possible and that even correct rulings do not please partisan fans, who regard the judgment of play as a common enemy.

## COURTNEY DEAN OF ROWING COACHES

Charles H., or "Old Man" Courtney, as he is more familiarly known, is the dean of American rowing coaches. He has turned out more champion crews than any other coach in this country—more, in fact, than all the others combined. Some persons have attempted to minimize his ability with the explanation that oarsmen grow in the

CHARLES H. COURTNEY.

invigorating climate of Lake Cayuga, but Cornell's annual successes are due more to Courtney's almost infallible judgment in the selection of his oarsmen and his rare skill in rigging a boat than to the natural advantages which he and his crews enjoy.

Courtney has been connected with Cornell's rowing from its infancy and has done more than any other man in this country to develop college rowing to its present high state of efficiency.

Courtney is a strict disciplinarian and never tolerates any violation of training rules. He has been known at times to "fire" an entire crew and to win with an eight of green men. As a rule, he is considerate with his oarsmen, but insists upon attention to business.

The most recent example of his discipline and relenting spirit occurred just prior to the departure of his crews for the recent Poughkeepsie race. Three members of the freshman eight had been found guilty of breaking training rules to the extent of eating ice cream. Courtney "fired" them on the spot, but he took them along to Poughkeepsie, and when he thought they had been sufficiently punished he replaced them in the boat. Now they are known as the "ice cream kids," a name that will probably stick to them during their undergraduate days.

## HARD FOR PLAYER TO QUIT.

Davy Jones Says Call of Baseball is Too Strong.

It is difficult for a big league player or a minor leaguer, for that matter, to quit baseball. Davy Jones, the left fielder of the Detroit Tigers, thinks so, and Davy admits that when the time comes for him to lay aside his uniform for the last time he will find the task a hard one.

Davy is one ball player who should not worry about the future. He has an established drug store, does a profitable business, has a long lease and a competent partner in his brother. Still Davy hates to think of the time when he will have to quit.

It is not a case of not being able to pursue some other line of business, but not wanting to, in the case of the ball player. He has lived the life of the game, and its features have got into his system. The call is too strong.

Getch Preparing For Bout.  
Arrangements are practically completed for the erection of the training quarters for Frank Getch in Humboldt, Ia., to be used in his preparations for the world's championship wrestling match with George Hackenschmidt to be held in Chicago next September. Several cities have been making offers to Getch, but he has been anxious to do his work at home, and so during the next few months Humboldt will be the center for wrestlers.

Frank Chance passed Ingerton up for Doyle, and just now it looks a tossup between the pair.  
Charley Doolin and his Phillies have been playing a brand of ball that is far ahead of anything that was expected of them before the season opened, and one of the men who deserve a big boost for the Quakers' landing in the pennant race is young Mr. Alexander, a pitcher secured from the New York State League.

Clark Griffith, who has been criticized for deals he has made, seems to have secured a live wire in Jimmy Esmond, who last season played with the Jersey City team of the Eastern League. Esmond played phenomenal ball around the keystone for the Skeeters and also walloped the ball good and hard.  
The New York Yankees have added two dandies to their winning staff in Ray Caldwell, from the Ohio and Pennsylvania League, and Ray Fisher, from the Connecticut circuit.  
Cleveland picked up a star infielder in Olson and a crackerjack pitcher in Vean Gregg.

John L. Taylor grabbed a good looking youngster for the Boston Americans in Yerkes, who last year worked in the New England league.

Because he lacked "fight and ginger" Manager McAleer of Washington has sent Outfielder Miller to the minors. He has everything but the pepper.

## Eccentric Will of Millionaire

THE will of Frank Work, the eccentric old millionaire who died recently in New York, voices his disapproval of the matrimonial career of his favorite daughter, Frances Ellen, who married and later divorced James Burke-Roche of England. Work left \$15,000,000.

Mrs. Burke-Roche is to have \$80,000 a year pin money, but she is forbidden

© 1911, by American Press Association.

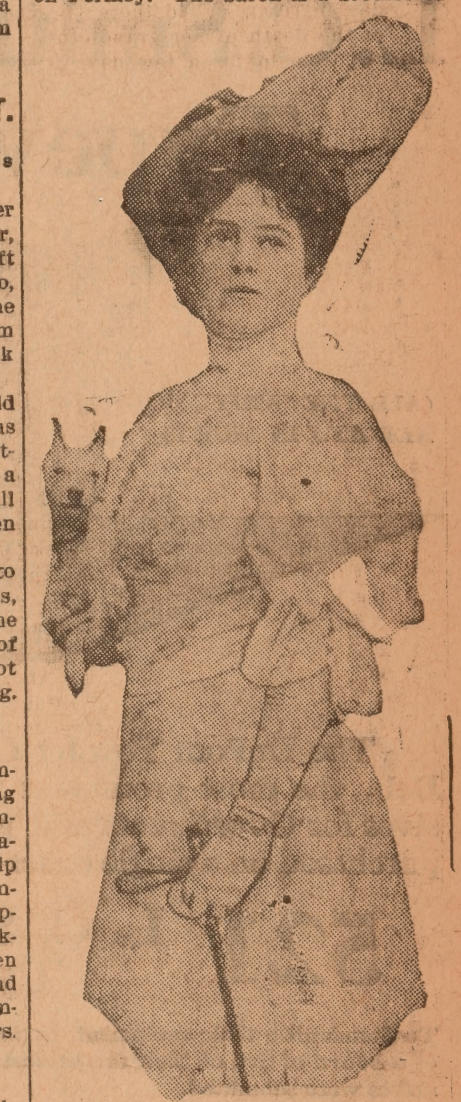

FRANCIS BURKE-ROCHE.

to rejoin her ex-husband or give him any of her money and must not visit or reside in the kingdom of Great Britain and Ireland or the continents of Europe, Asia and Africa.

Her twin sons, Maurice and Francis, are to get an income of about \$250,000 a year, but they must take the name of Work, mustn't give their father any money and must become citizens of the United States.

The boys are given one year in which to make their decision. They are said to be averse to complying with the requirements, and if it is impossible to arrange a deal whereby they will retain their name and fortune they will may be contested on the ground that the testator was senile when he made it.

Maurice and Francis Burke-Roche do not dislike their father, and it is said that their mother had no reason in obtaining a divorce beyond her father's dislike for Burke-Roche. Besides, the boys like the name Burke-Roche, and Maurice, who is the elder by seven minutes, has his heart set upon becoming a British peer. As the elder son of James Burke-Roche he will some day fall heir to the title of Baron Fernoy. The baron is a brother of

MRS. BURKE-ROCHE.

James Burke-Roche and is a member of the British parliament. Upon the death of the baron, James Burke-Roche will become heir to the title of baron, and it will later descend to Maurice.

Maurice is a junior clerk in the office of the Delaware and Lackawanna railroad, and Francis has a still position in the First National bank in Wall Street. Maurice draws \$80 a month, and Francis gets about the same amount. The boys were compelled to go to work because after they were graduated from Harvard their grandfather refused to give them a cent, although he was willing to permit them to live with him without "paying board."

Work made his fortune as a horse-man, stockbroker and associate of Commodore Vanderbilt.

Coming Celebration.  
A little girl in Sabatha, Kan., is to be baptized next Sunday, and she is proudly telling her friends that she is to be "advertised."

A DUTY LEFT UNDONE TODAY BECAUSE IT SEEMS EASY, IS TOMORROW PUSHED ASIDE BY ANOTHER AND BECOMES HARDER.

TODAY IS ONLY OURS AND THE ONLY GUARANTEE WE HAVE OF TOMORROW IS THAT WE HAVE TODAY.

IF TOMORROW COMES WE ARE FORTUNATE BECAUSE OF WHAT WE DID YESTERDAY.

SAVING MONEY MAY BE A SACRIFICE TODAY, BUT IS ALWAYS A PLEASURE TOMORROW.

WE INVITE YOU TO DEPOSIT \$1 OR MORE WITH THIS BANK AND SEE IT GROW.

Ypsilanti, Michigan

## Society News

Calendar for Tuesday, July 11, 1911  
Ypsilanti Home Association, 3 p. m.  
Miss Lotta Coombs, 107 North Huron street.

Regular communication, Phoenix Lodge, No. 13, F. and A. M., 7:30 p. m., Masonic Temple.  
Social meeting of Degree of Honor postponed until further notice.

### Shower for Saline Girl.

Miss Mabel Brooks gave a pretty-arranged miscellaneous shower Friday afternoon in honor of Miss Maud Miller of Saline, whose marriage to Eckert Schroefer of that place will take place some time in August. Besides the Saline guests, there were present the Misses Flossie and Leota Oliver of Camden and Miss Belle Kellogg of Howell. The house decorations were in pink and white, which trailed very prettily from the corners of the ceiling to the chandelier, where a white parasol embroidered with pink roses contained the objects of the shower. The afternoon began with a guessing contest, the questions of which related to the bride. The prize went to Miss Genevieve Barr of Saline. Then each young lady was given a thread of a spider's web, at whose further end was discoverable the history of the bride, while the bride herself traced back her slender thread to a quantity of attractive gifts. A two-course luncheon was served, the twenty guests being served at small tables, ornamented with carnations and ferns.

### Meeting Day Changed.

The Circle of Companions to the Foresters will hereafter hold its meetings on the first and third Friday evenings of each month.

## Mrs. Mary Stone Dies At Home Of Daughter

The death of Mrs. Mary J. Stone, 75, occurred at the home of her daughter, Mrs. Bert Gleason, in this city, Saturday evening. Mrs. M. J. Stone was born in Saline and had made her home there up to four years ago when she came to Ypsilanti to live with her daughter. She leaves but the one daughter with whom she has been making her home, and four grandchildren.

Short services will be held at the Gleason home at 11 o'clock Tuesday morning after which the body will be taken to Saline where the funeral will be held at the Saline Baptist church at 2 o'clock.

### FIVE-YEAR-OLD GIRL DIES OF TYPHOID FEVER

The death of Helen Warren, the five years old daughter of Mr. and Mrs. George Warren (colored) occurred Saturday evening. The child had been ill with typhoid fever. The funeral will be held at 4 o'clock this afternoon with interment at Highland cemetery.

### FEET WON'T BURN, SMART OR SWEAT.

Foot Misery Vanishes When You Rub On EZO the Refined Ointment.

Nothing in all the world like EZO the new discovery for tired, aching, burning, swollen, dry and tender feet.

Rub on EZO and rub out agony—It's so easy to use—just rub it on—that's all—and make your poor, tired feet feel fine and dandy in five minutes—no fussing around getting ready.

Jesse Youngs, who is suffering from a stroke of paralysis, is a little better. He has been taken from the home of his son where he was taken ill to his home near Ypsilanti. His daughter, Mrs. C. K. Kelley, is caring for him. His daughter, Mrs. Louise Faragher of Loraine, Ohio, his grandchildren, the Misses Electa and Marie Youngs of Chicago, his daughter, Eloise Kelley of Mantowoc, Wis., are all with him.

Miss Marguerite Stoddard has returned from Romeo where she spent the week end with Miss Gladys Beemer, a former college student.

Mr. and Mrs. Anna Cady, Mr. and Mrs. Clinton O'Connor, Lee Dawson and friend are spending the week at Portage Lake at the O'Connor cottage.

Mr. and Mrs. Anna Cady returned Sunday from a short visit with relatives at Plymouth.

Mrs. Mary Coon will leave Tuesday for Lake Orion to spend a few weeks with friends.

Miss Sarah Mavity will leave Tuesday for Sarnia to spend a few weeks with friends.

Mrs. Ed. Russell of Detroit is spending a few days with her parents, Mr. and Mrs. E. C. Clark of Congress street.

The Misses Lucretia and Caroline Case of Hamilton street left the latter part of last week for Omaha, Neb., where they will visit their brother, Mark Case, formerly of Ypsilanti.

Mr. and Mrs. H. W. Sweet left this morning for a few days' stay at Portage Lake.

Elihue Gooding left this morning for a four weeks' business trip through Illinois in the interests of the Michigan Ladder Company.

Miss Lou Benton of the Coldwater state school spent Saturday and Sunday in the city with her sister, Mrs. Chas. Riley, of Congress street.

Mrs. Lee Fuller is visiting relatives near Rochester, N. Y., for a few weeks.

Miss Carrie Hardy returned Saturday from a week's stay at Portage Lake.

Miss Barbara Disbrow spent Sunday with friends in Detroit.

Mrs. Otis Stevens is expected home the fore part of this week from Kansas where she was called by the death of her brother.

Miss Lulu Price returned to her home in Almont Sunday after having spent the past few days with friends here.

M. M. Read read the service at St. Luke's Episcopal church Sunday morning, and he also read a number of excerpts from published sermons.

There were 60 young people in Mrs. Marshall H. Pettit's Sunday school class at the Baptist church Sunday morning. The topic considered was the Resurrection.

H. M. Frain went to Lima Center today to attend the funeral of Arl Guerin, a cousin of Mr. Guerin who formerly lived in Ypsilanti.

Mr. and Mrs. Carl Bange and family of Elmira, New York, are expected this evening to visit Mrs. Bange's parents, Mr. and Mrs. Frank Joslyn.

D. L. Quirk, Jr., has gone to Nantucket to join his family.

Mrs. H. A. Leeson spent a rather uncomfortable day Friday at the hospital in Ann Arbor but this morning was reported much better. It will be several weeks before she returns to her home in Ypsilanti probably.

Mrs. Fred Weissinger of Ann Arbor is spending the week in Ypsilanti.

Mrs. H. M. Frain and Mrs. W. R. Schaeffer have spent the day in Detroit.

Miss Irene Bush, a teacher in the Detroit public schools who is attending the summer Normal, entertained nine summer school students at her home in Detroit Saturday with a dinner.

Dr. H. A. Leeson went to Detroit this morning.

Verne Pettit spent Sunday in Detroit.

Mrs. H. A. Leeson spent the most comfortable day on Sunday she has had since her recent operation.

The Misses Caroline and Anna Towner are in Detroit.

Miss Carrie Schurz of Detroit was the guest of her sister, Mrs. Louis De-Nike, Saturday.

Miss Lottie Swain of Milan spent Saturday and Sunday with Mrs. F. Bowerman.

Mrs. E. Selleck has returned to her home at Laporte, Ind., after spending several months with her daughter, Mrs. C. Schrepper.

Wm. Glover spent Sunday with his family at Milan.

Miss Mary Monaghan of Detroit has been in the city for a few days visiting her mother, Mrs. J. Monaghan.

Mr. and Mrs. A. Kuder of Macon have returned to their home after a couple of days' visit with Mr. and Mrs. Frank Stilts.

Mrs. M. Sanderson of Eloise was the guest of Ypsilanti relatives, Sunday.

## WIFE CAUSES HIS ARREST

E. B. Carpenter, of Flint, is in Trouble in Washington.

Washington, July 10.—Elmer B. Carpenter, of Flint, a clerk in the department of commerce and labor, has been arrested on charges made by his wife, Agnes E. Carpenter, in a bill for limited divorce.

The wife alleges fear Carpenter will kill her if left at large. Secretary Nagel will probably institute an investigation. Mrs. Carpenter alleges abuse and cruelty almost from their marriage in August, 1906.

## CHILD DIES OF HIS BURNS

Gasoline Torch Proves a Deadly Plaything.

Bay City, Mich., July 10.—Doeey, four-year-old son of Mr. and Mrs. Nelson Reno, died from burns received while playing with torches made from "cat tails."

With other children about the same age the boy dipped the flags into a gasoline can which they discovered in the rear of the store. They then lit the fluffy tails and the youngster holding the torch downward, set fire to his clothing.

## THE WORLD OVER SUNDAY

King George was given a loyal welcome in Dublin.

Colt said Miss Barrymore's suit is surprise to him.

Mexican government plans to float two big bond issues.

Governor McGovern vetoed Wisconsin reapportionment bill.

Former governor of Nevada arrested as a result of the suspension of his bank.

World-wide religious campaign among men planned by Christian Endeavorers.

New York Bertillon bureau is to add study of faces to identification system for catching criminals.

Report to teachers at San Francisco meeting said lawlessness is becoming an American characteristic.

Captain Faria of wrecked Santa Rosa accused of cruelty and blamed for many deaths by survivors.

James Pettit, prominent board of trade man, was drowned in Lake Michigan, near the Moraine hotel at Highland Park, Ill.

House Democrats started investigation of charge that President Taft connived with the Morgan-Guggenheim interests in railroad deal in Alaska.

The first tariff vote of the United States senate was taken with the result a victory for the president. The vote was upon the amendment of Senator Cummins of Iowa to the Canadian reciprocity bill, adding meats to the free list provided in the measure. The amendment was defeated, 14 to 32.

## CATCHER M'LEAN'S LOVE FOR UMPIRE KLEM.

Bill Klem, the National league umpire, has a mouth of large dimensions, and thereby hangs a tale that bodes ill to Catcher Larry McLean of the Cincinnati club if the National league "ump" ever hears it. Last spring McLean, who also has some mouth, put in a couple of hours watching one of the big alligators at Hot Springs, which kept its mouth open most of the time. Asked why it was so interesting, McLean replied: "It reminded me so much of Bill Klem on a busy afternoon that I hated to leave."

## Stop That Torturing HEADACHE

A headache is irritating, nerve-racking and therefore weakening. Worst of all there's a cause—an organic disorder—that you must not neglect. Don't continue to suffer—don't drift into serious ailments—get a package of Caparine today.

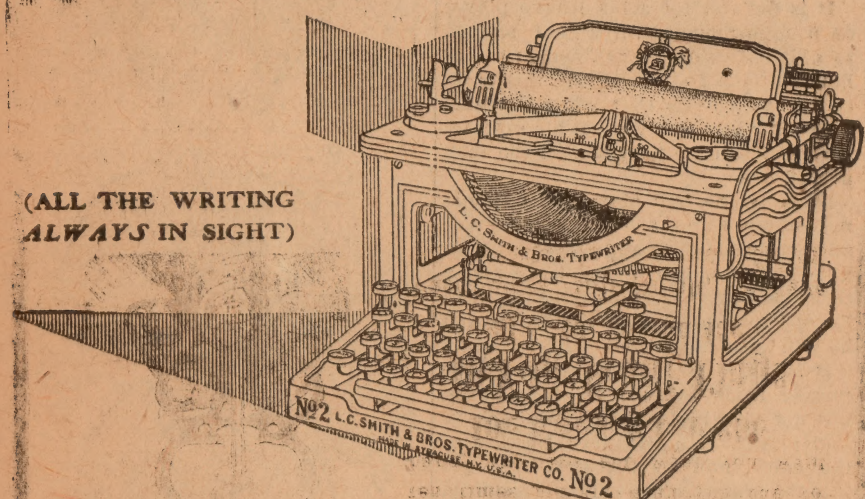

stops the worst headache almost instantly and then relieves and cures the condition that produced it. Colds, constipation, biliousness and grip yield quickly to this remarkable preparation. Caparine is a tonic and stimulant and a gentle laxative. Be prepared for the next headache—get a package today. At all druggists—10c and 25c. DeKalb Drug & Chemical Company, Ltd., DeKalb, Ill.

## BANISH THOSE GRAY HAIRS! Kill the Dandruff Germs—Stop Hair Falling

Thousands of mothers are looking younger.—Their gray hairs are gone. The natural color has come back, and with it a new growth of soft, glossy, luxuriant hair. Why should you look old before your time, when you can look years younger by using

**WYETH'S SAGE & SULPHUR HAIR RESTORER**

### Dandruff Cured

Three applications removed all the dandruff and left my scalp clean, white and smooth. Wm. Croak, Rochester, N. Y.

**It Is Positively Guaranteed to Restore Faded and Gray Hair to Natural Color**

If other "so-called" Restorers have failed, don't give up hope, but give WYETH'S SAGE AND SULPHUR HAIR RESTORER a trial. You run no risk. If it is not exactly as represented, your money will be refunded.

### PROFIT BY OTHERS' EXPERIENCE

#### Gray Hair Restored

My hair was getting quite gray and falling out rapidly and I was troubled with a terrible itching of the scalp. My head was full of dandruff, which fell upon my clothes and kept me continually brushing it off. While on a visit to Rochester I heard of your Sage and Sulphur for the hair. I got a bottle and used it. A few applications relieved the itching, my hair stopped falling out and gradually came back to its natural color. It is now a nice dark brown color, soft, glossy and pliable. Several of my friends want to use it, and I want to know what you will charge me for six bottles of it.

MISS E. A. ROSS,  
Sharon, Mercer Co., Pa.

#### Grew Hair on a Bald Head

For two or three years my hair had been falling out and getting quite thin until the top of my head was entirely bald. About four months ago I commenced using Sage and Sulphur. The first bottle seemed to do some good and I kept using it regularly until now I have used four bottles. The whole top of my head is fairly covered and keeps coming in thicker. I shall keep on using it a while longer, as I notice a constant improvement.

STEPHEN BACON,  
Rochester, N. Y.

**50c. and \$1.00 a Bottle—At all Druggists**
